A Legacy of Craftsmanship

What began in a small European workshop has since become an international brand. Today, our worldwide team, more than 400-strong, continues to embody our original craftsmanship and maker spirit.

Every piece we craft is imbued with the stories and traditions of our 75-year heritage.

1948

Founded. Franz Zingerle founds Zingerlemetal in South Tyrol, Italy. He and his sons begin building mobile equipment.

2014

Makers Unite. Zingerlemetal and RUKU Klappmöbel merge to continue the tradition of Rudolf Kurz, inventor of the beer garden folding lock while improving construction.

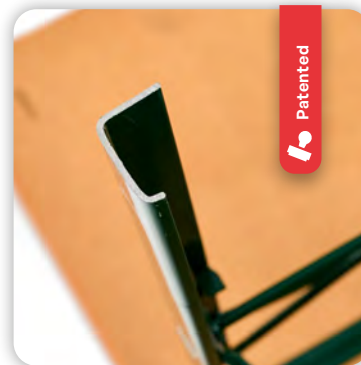

1993

Product Expansion. Zingerlemetal expands beyond its signature folding furniture, offering canopy tents under the Mastertent brand.

1952

New Inventions. Rudolf Kurz, the brand's namesake, invents and patents the folding furniture lock, a mechanism still in use today.

2014

Patented Performance. Our key construction points: trapezoid-shaped base and c-shaped frame profile receive patents alongside our signature 'Comfort' curved table model - securing stability and comfort for years to come.

2020

Greener than ever. Renewed efforts to care for people and the planet begin, including offsetting consumption through our reforestation program and by giving back to communities.

2017

U.S. Expansion. Our Charlotte, NC office opens to meet the North American demand for authentic beer garden furniture.

Today

Building on 75 years of history. Today at RUKU1952, we still operate under our family name and leadership, now Zingerle Group. We've grown, innovated, and modernized while holding true to our mission and our beer garden roots.

Our signature, commercial-grade furniture finds its place with businesses and homemakers across the globe. Browse our [Online Shop](#) or connect with a RUKU1952 Product Expert.

Our team is ready to offer product and partnership information alongside dedicated support for projects large or small.

THE FIRST FOLDING FURNITURE MODELS ARE ON DISPLAY IN THE MUNICH CITY MUSEUM IN GERMANY

A New Take on Folding Furniture

At their core, every piece of RUKU1952 builds on our signature folding mechanism. Quick-latch technology has our tables and benches ready to use or stow in minutes.

The folding designs offer businesses maximum flexibility while requiring minimal storage space.

1. UNPACK

Built to stow and stack with ease, our table sets feature protective support beams. Unstack when ready to use.

2. UNFOLD

Release and secure your table and bench frames with our folding furniture lock. Simply unfold each base piece and snap the support brackets into place.

3. UNWIND

Flip each furniture piece, place into your desired setting, and enjoy!

Folding Backrests

Our backrest benches emulate the same folding design.

Simply release from the base of the frame, lift and lock the backrest into place.

Beer Garden Furniture Models

Set the tone with enduring quality and stability. With time-tested designs, we offer a range of sizes and models to best suit your needs. Alternate frame and bench models for your ideal solution. It's no wonder why our tables and benches are preferred for large events.

Extended Table Sizes

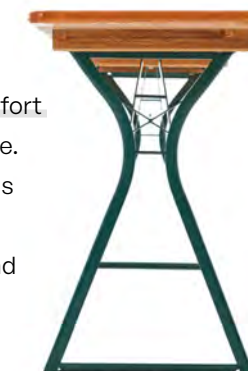

Balanced. Our Wide beer garden table set utilizes our patented trapezoid base frame and C-profile - offering a 20% increase in stability over other beer garden tables.

ANTI-TIP BASE FRAME
Engineered for maximum stability, our anti-tip brackets stabilize the added weight of the broader table surface.

The Comfort Base

Spacious. More legroom and a sleek design make our Comfort model an Oktoberfest favorite. The x-shaped frame maintains our folding functionality. Compatible with Standard and Narrow* table widths.

The Backrest Bench

Relaxed. Enjoy the added support of our ergonomic, easy-to-use backrest. Folding backrest benches come equipped with an anti-tip base and safety lock for added stability.

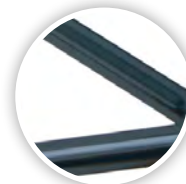

What makes a quality beer garden table?

We're satisfied with nothing less than excellence, right down to our locks, ledges, and support beams. It's these details that set us apart. Our exacting material standards and sophisticated technology come together in beer garden sets that last for decades.

Folding Furniture Lock

Trusted. We test each galvanized lock and spring mechanism, guaranteeing a secure hold without wobbling.

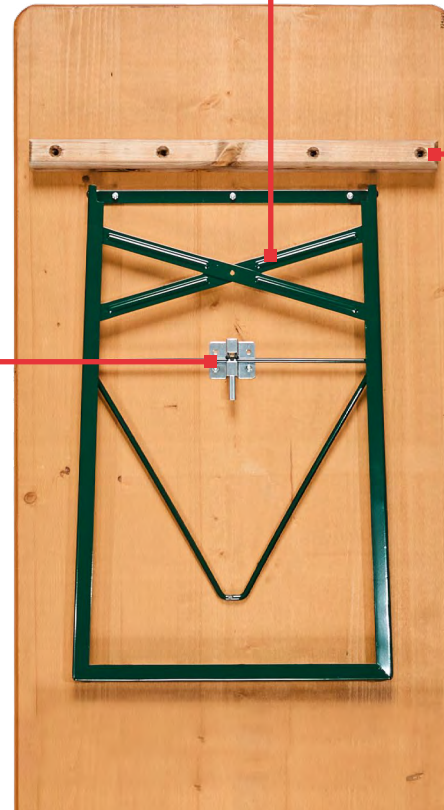

Support Beams

Sturdy. Steel stiffening ribs in the x-bracing cross struts offer increased stability to table and bench base frames.

Stacking Ledges

Protected. Our traditional beer garden sets feature bevelled wooded ledges for safe stacking and transportation.

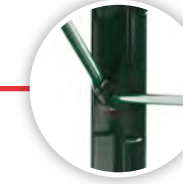

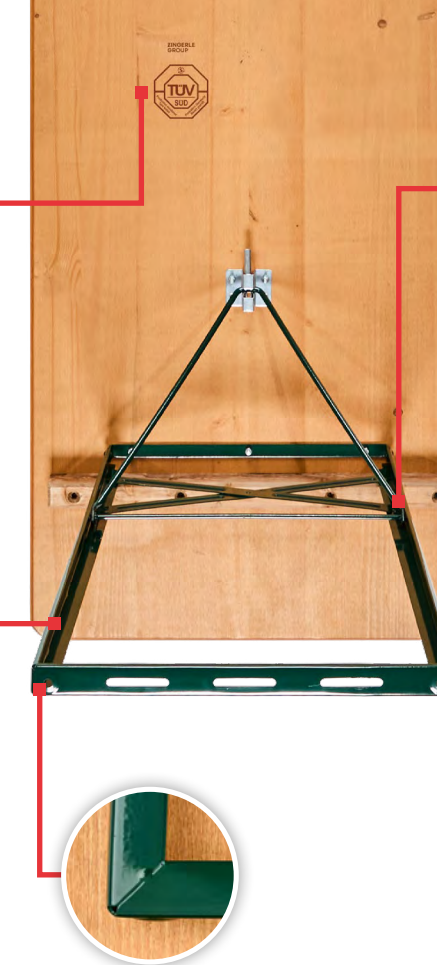

TÜV-SÜD Certified

Tested. From beginning to end, our entire production process adheres to strict, comprehensive quality controls. Safe, secure, and sustainable, every piece we craft meets brewery standards.

Patented C-Profile

Stable. Our patented trapezoid-shaped base frames are built from a sophisticated curved steel profile - resembling the shape of the letter C, the angled frame offers added stability over alternative table construction.

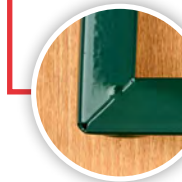

Bracket Latch

Secure. Steel latches lock the supporting angled brace in place when the set is folded and not in use.

Floor Protectors

Thoughtful. Optional plastic covers provide added protection and peace-of-mind for indoor surfaces.

Corner Welding

Durable. A weld seam finishes base frame corners for additional stability and a clean look.

Beer Garden Table Color Customization

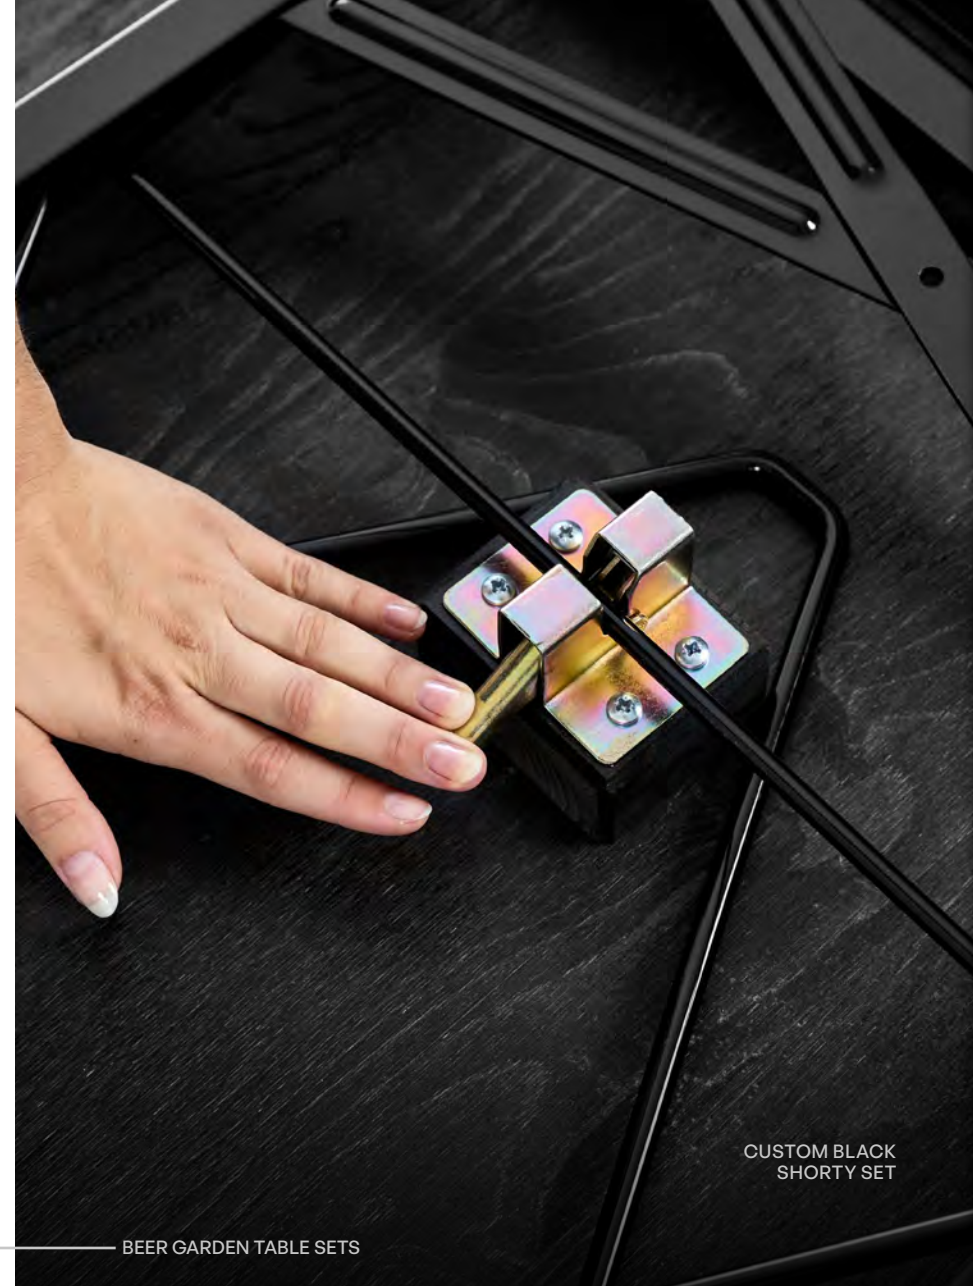

Our beer garden tables come in your choice of two traditional wood finishes and powder-coated frame colors. With the ability to mix and match finishes and extensive custom colors options, there's something for everyone.

UV Finishes: Each wooden tabletop showcases the natural beauty of our spruce before finishing in multiple layers of clear and colored varnish for the tone of your choice.

Powder-Coated Base Frames: Our powder-coated finish protects against corrosion and scratches for lasting use while bringing a sleek color finish to the steel base frame.

Directly from the Manufacturer

Ever wondered what goes into our beer garden sets? 136 parts and lots of heart. We take pride in every step of our manufacturing process.

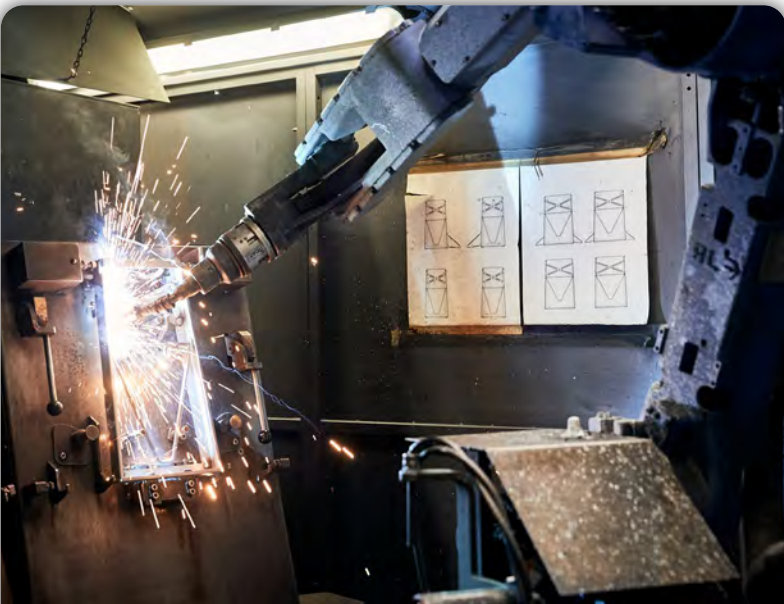

HOW IT'S MADE:
SCAN TO SEE THE PROCESS
BEHIND THE PRODUCT

Wood Selection & Processing

Down to the details. Every RUKU1952 table starts with carefully selected and harvested lumber from European forests. Then, our team dries, cuts, shapes, sands, and finishes the wood. At each stage, we keep a keen eye for distortions and imperfections impeding the final table quality. The entire transformation, from treetop to tabletop, reflects our respect for this natural material and for high-quality performance.

Frame Production and Assembly

Forged. Our steel base frames are welded, shaped, and assembled before heading for finishing in our very own powder-coating chamber. After the powder-coat is applied and cured, each frame piece is expertly attached to its wooden tabletop or bench counterparts. After a final quality check, our benches and tables begin their journeys to customers all over the world.

Table Set Customization

Personalize your beer garden set for an event or special occasion. Make the wooden panels your canvas with an understated logo or full-surface printing.

With conventional printing, custom finishes, and custom build options, we can help you create an aesthetic to match your vision.

Ink Printing

Lasting. Our water-resistant ink holds up for years. Durable legibility makes this print method ideal for advertising on the top of the wooden panels or labeling on the undersides. Minimum order of 10 sets.

Screen Printing

Eye-catching. Customize your tabletop with a bold, single-color emblem. Our expert technicians format designs on mesh screens before applying them between layers of protective varnish. Our screen printed graphics are fade- and scratch-resistant and can measure up to 9.8 x 9.8 in. Minimum order of 20 sets.

Digital Printing

Impressive. Creativity knows no limit with digital printing. Transform your beer garden sets with full-color images, protected between layers of UV-glaze. Minimum order of 50 sets.

FULL COLOR CUSTOMIZATION

For more full-surface design options, explore our wood and frame color customization options on Page 18. Minimum order of 50 sets.

Burn-In

Dimensional. Wood-burned embossing distinguishes your design in timeless texture. We use custom branding irons to create a distinctive, blackened look. Minimum order of 10 sets.

We Are Reforesting Native Forests

To us, innovation means more than exceptional design. It also means constantly asking: “How can we better care for our community and the planet?”

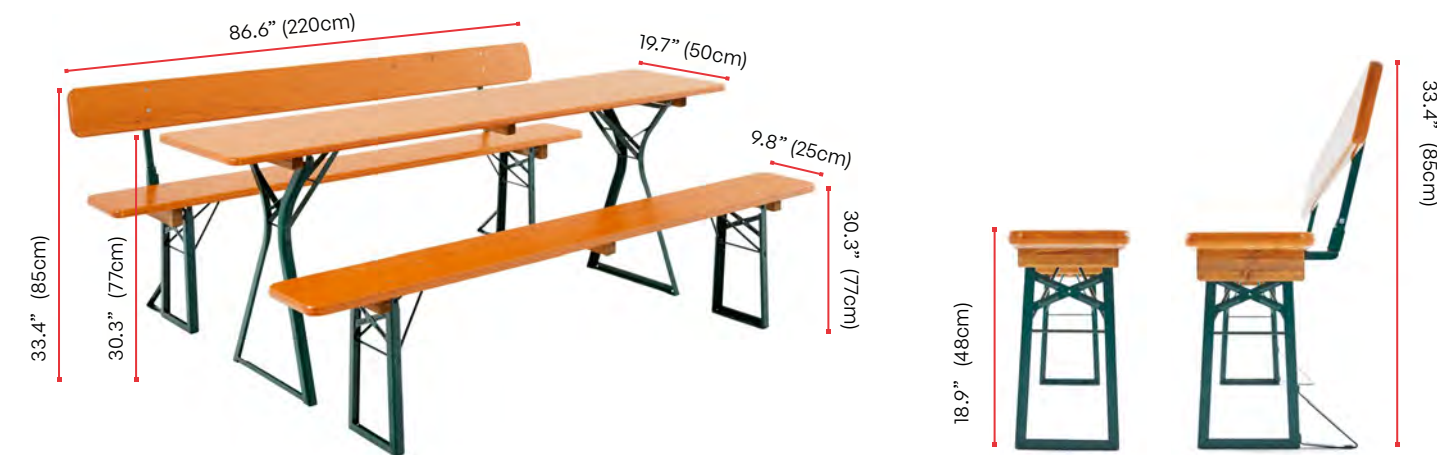

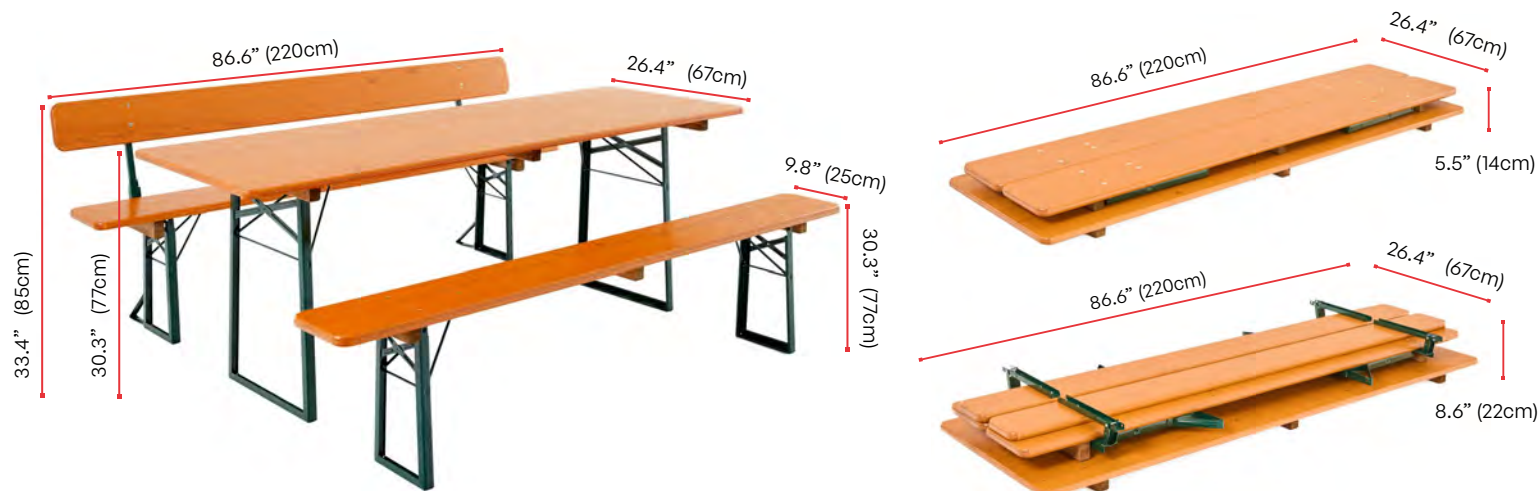

We source our beer garden furniture wood from European forests and process it with care at our nearby facility. To ensure sustainable production and preserve the beauty of the Carpathian Mountains, we support a reforestation program in the Harghita region where we operate.

In 2022 alone, we planted 7,500 trees, offsetting 21% of our consumption. We continue our annual commitment of growing that number year over year.

RUKU1952

Europe's iconic, authentic source for beer garden furniture. Easy to stack, transport, and deploy, these tables don't sacrifice style.

Catawba Riverkeeper Foundation

"The Catawba Riverkeeper's River Room taproom has been using RUKU1952 furniture since October 2022 and are very happy with the quality, durability and mobility of both the tables and benches. We have this seating both outside on our patio and inside and they create a warm and casual atmosphere which we can easily dress up for more formal events. We will continue to order this style beer garden seating in the future!"

Stephanie P.

Beautifully engineered and crafted. But perhaps even more impressive is their customer service, the best I've experienced in a very long time.

Maureen J.

"The biergarten table and benches are awesome! The set is extremely well made, sturdy and attractive."

Gunn S.

"I wouldn't hesitate to recommend RUKU1952 and will happily buy from these folks again."
